Introduction

ZoomIt is a screen zoom and annotation tool for technical presentations that include application demonstrations. ZoomIt runs unobtrusively in the tray and activates with customizable hotkeys to zoom in on an area of the screen, move around while zoomed, and draw on the zoomed image. I wrote ZoomIt to fit my specific needs and use it in all my presentations.

ZoomIt works on all versions of Windows and you can use pen input for ZoomIt drawing on tablet PCs.

Lastly, ZoomIt has guided zoom, which follows your mouse around. While it comes with preset hotkeys like Ctrl for the basic zoom, when you open it for the first time, it offers you the option to change these hotkeys to something else. Microsoft ZoomIt Free Software IsAdvertisement Plenty of options This free software is packed with many options like the ability to draw on the home screen. The software also includes the ability to place a timer on the home if you want to hide the presentation until the program begins. It also allows you to write on your computer's screen while providing other tools to assist in making the best presentations. Its a very flexible piece of software perfect for working with presentations with its abundance of options and ease-of-use. cea114251b [Nvidia Cuda Driver Download Mac](#)
